Principal, SCMIRT

Year

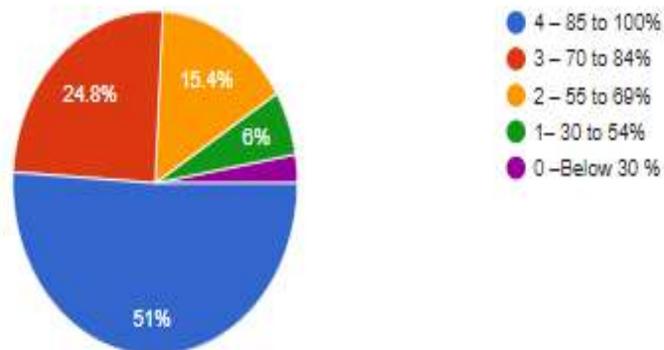

149 responses

How much of the syllabus was covered in the class in the academic year 2022-23?

Copy

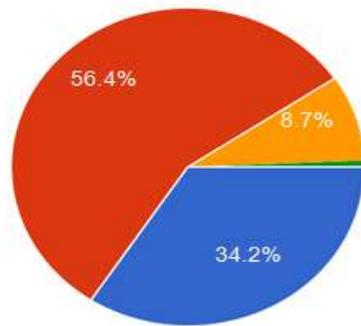

149 responses

Principal, SCMIRT

How well did the teachers prepare for the classes?

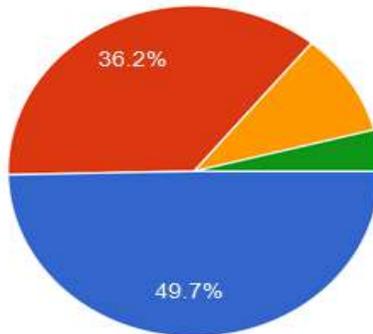

149 responses

- 4 - Thoroughly
- 3 - Satisfactorily
- 2 - Poorly
- 1 - Indifferently
- 0 - Won't teach at all

How well were the teachers able to communicate?

149 responses

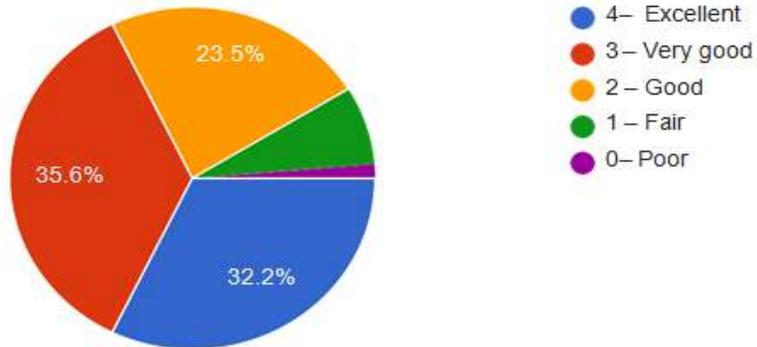

- 4 - Always effective
- 3 - Sometimes effective
- 2 - Just satisfactorily
- 1 - Generally ineffective
- 0 - Very poor communication

Dahlu
Principal, SCMIRT

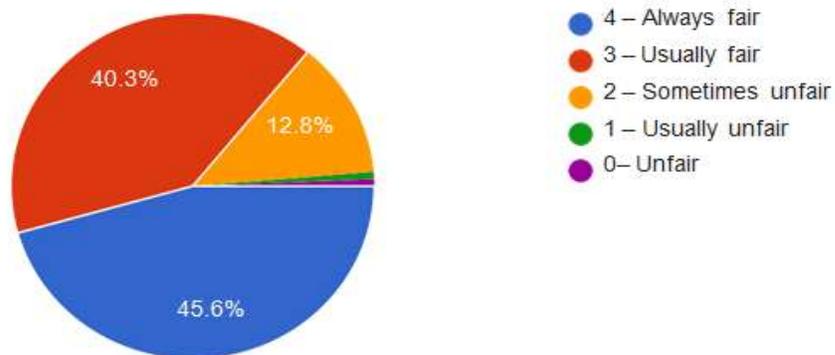

The teacher's approach to teaching can best be described as

149 responses

Fairness of the internal evaluation process by the teachers.

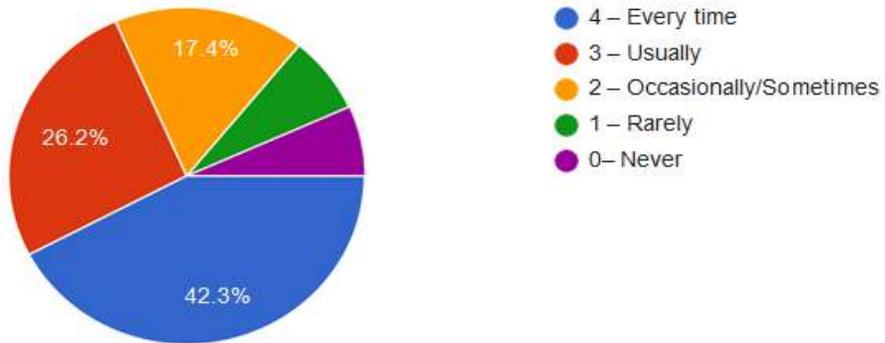

149 responses

Principal, SCMIRT

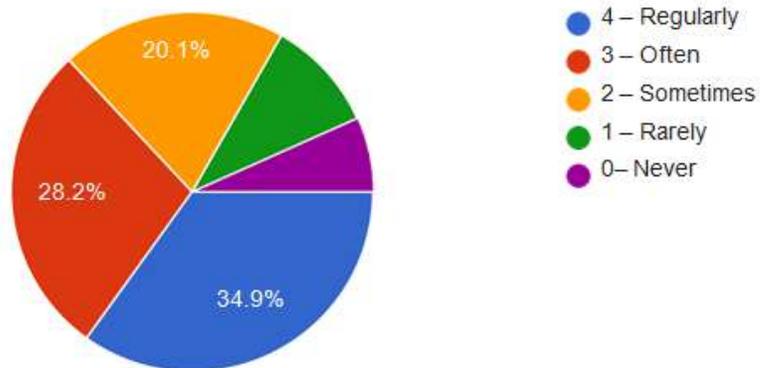

Was your performance in assignments discussed with you?

149 responses

The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

149 responses

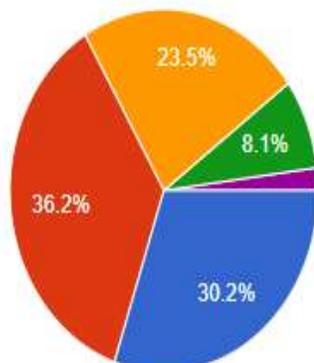

Principal, SCMIRT

The institution provides multiple opportunities to learn and grow.

 Copy

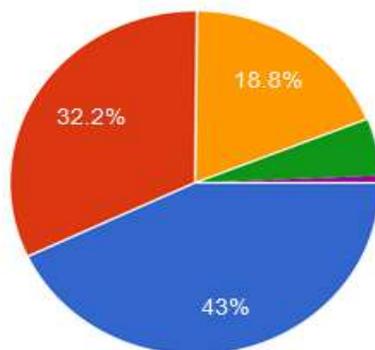

149 responses

- 4 - Strongly agree
- 3 - Agree
- 2 - Neutral
- 1 - Disagree
- 0 - Strongly disagree

Teachers inform you about your expected competencies, course outcomes and programme outcomes.

149 responses

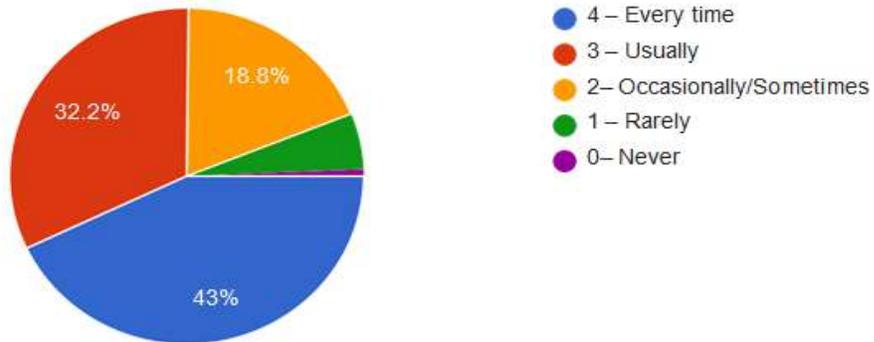

- 4 - Every time
- 3 - Usually
- 2 - Occasionally/Sometimes
- 1 - Rarely
- 0 - Never

Principal, SCMIRT

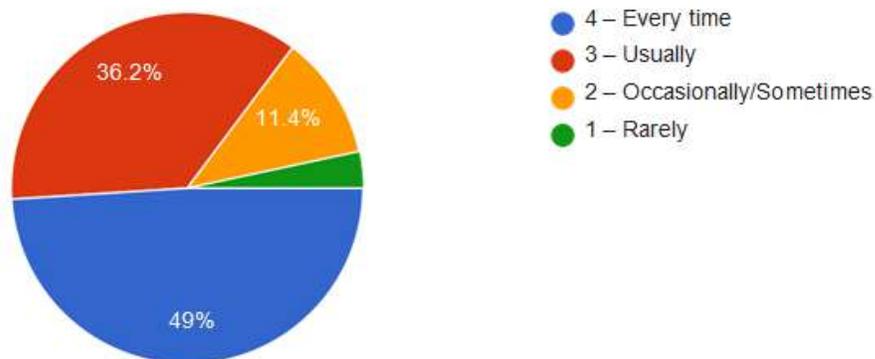

Teachers inform you about your expected competencies, course outcomes and programme outcomes.

149 responses

Your teacher does a necessary follow-up with an assigned task to you.

149 responses

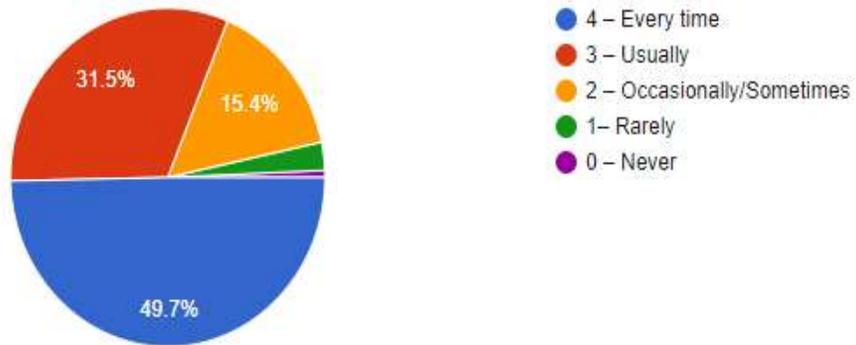

Principal, SCMIRT

The teachers illustrate the concepts through examples and applications

 Copy

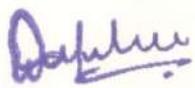

149 responses

The teachers identify your strengths and encourage you with providing right level of challenges.

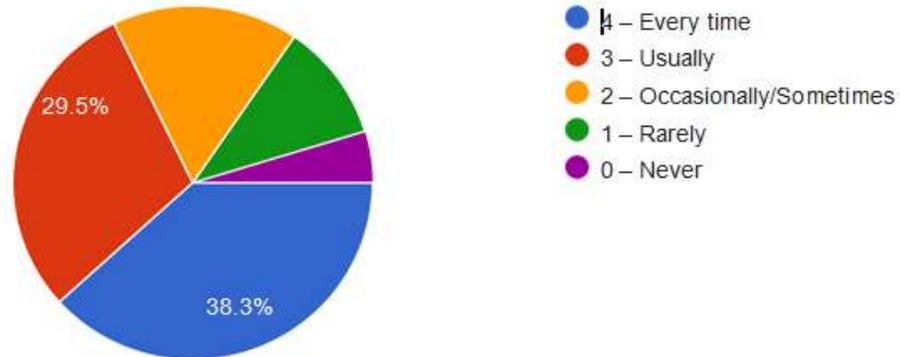

149 responses

Principal, SCMIRT

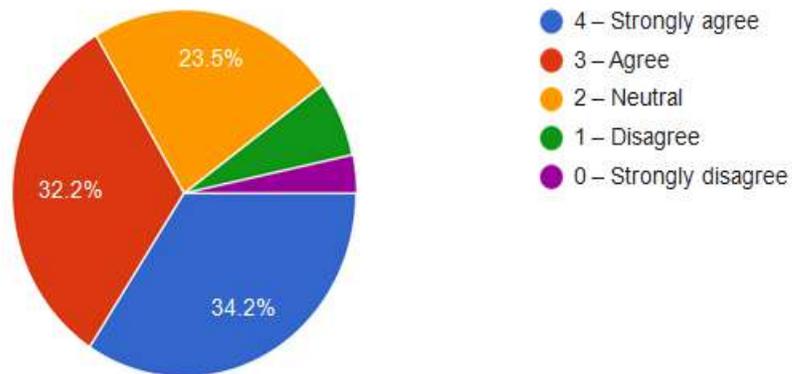

Teachers are able to identify your weaknesses and help you to overcome them.

149 responses

The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

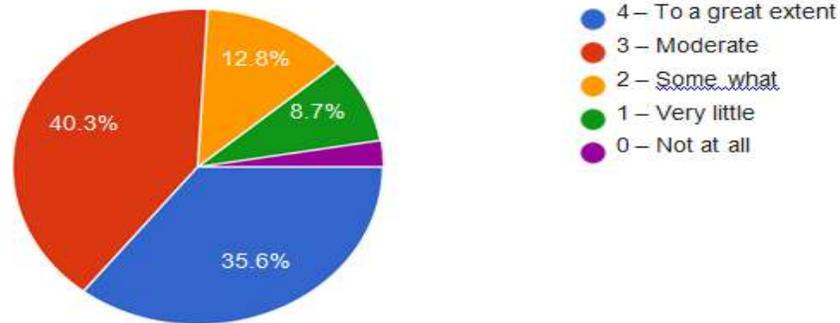

149 responses

Principal, SCMIRT

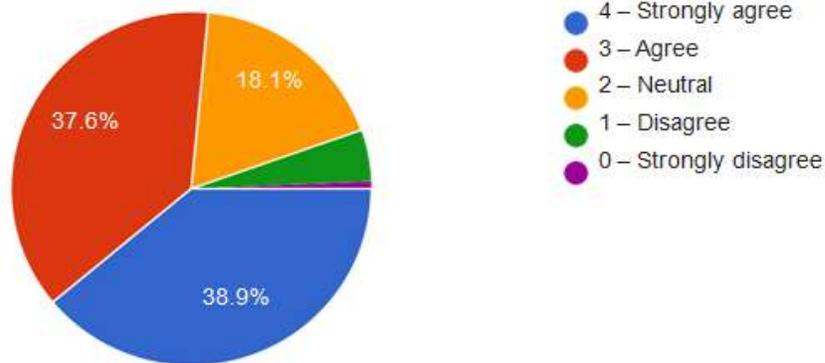

The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences such as webinar, guest lectures, virtual internship, social awareness program, fest conducted by College.

149 responses

Teachers encourage you to participate in extracurricular activities and knowledge enhancement activity.

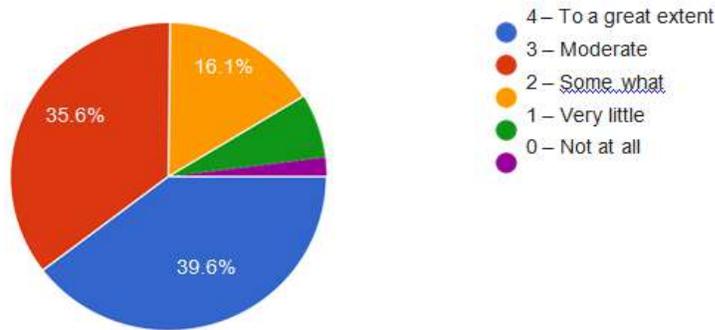

149 responses

Principal, SCMIRT

Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

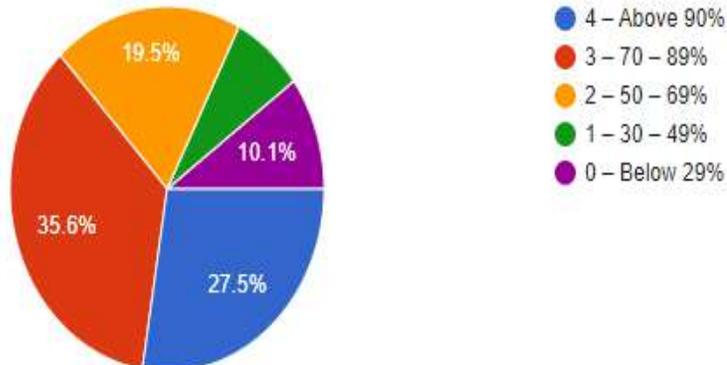

149 responses

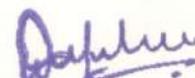

What percentage of teachers use ICT tools such as Google suite such YOU tube videos, links, software's, simulators.

 Copy

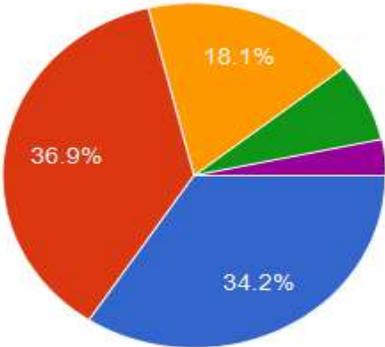

149 responses

Principal, SCMIRT

The overall quality of teaching-learning process in your institute is very good.

149 responses

- 4-Strongly agree
- 3-Agree
- 2-Neutral
- 1-Disagree
- 0-Strongly disagree

Principal, SCMIRT

Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

Every thing is perfect

Teacher should not be changed, Teachers should give practical knowledge, Teachers should give online notes for better understanding

-

Good

Punctual lecture timing

Really good faculty. Love being a part of the college.

Good

Good

More focus on extracurricular activities and field visits

Good

I like to b there

Satisfied with learning process

Foster active learning methods. Implement personalized learning through technology. Enhance communication and feedback channels.

Good

Good infrastructure and intellectual capital

Lecture to be made more interactive

Good lab support

After seeing the teaching of many teachers I have observed that the teachers are giving efforts to really teach the students so, to improve their teaching further they can use some simple examples to understand the topic.

1) There should be regular lecture

2) modern approaches should be adopted for teaching.

3)Should plan some industrial visit for understanding the other aspects of the industry

Good

I like to b there

Real life experiences to be shared

Allotment of proper classroom, and messages regarding assignments, functions should be given earlier.

Best

Please repair the projectors in the classes they rarely work which are a big obstacle in the presentation assignments. That alone would be enough.

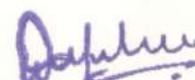

Attendance's , teaching , exams

Good

Ok

Good

Principal, SCMIRT

Teacher is really great

1. Mostly teachers try to solve our doubt.

2. Internal marks evaluation is impartial

ok

good

Good

it's good

good

Good

Teachers allocation is as per expertise

ok

1) Use better graphics and well computers for programming.

2) make Two way communication

3) ask for the doubts

1. Banking related guest session

2. The teacher should discuss the performance of the students of their assignments.

3. Projector should be used during the lecture so that the students can understand the concepts more easily.

As of now no more suggestions

all is good

Need more practicals

Computers must be upgraded to a Higher configuration, so that we can create high detailed artworks.

good

Arrange more industrial visits for students related to their industry, organize programs in colleges for students, arrange experience teachers staff for students to teach from industry who can teach us how industries works and provide high configuration PCs for students which can help students to be more effective. Work and they can show you good output of their work. You are providing PC for last 2 years but still we don't have PC.

it's good

Good

all is well

Overall it's good quality teaching experience

Lectures are going great we need small break only for attending other faculty's lectures

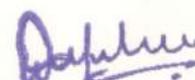

Have placements for students to get internships and jobs, so they can learn more. Hire more staff who knows the syllabus for our animation course, as 2/3 of the core faculty have left the institute leaving us without competent teachers. Have more value added courses in the college to prepare us students for our future.

Good

Institute should provide us with more industry information and learning, we don't have what industry needs. We learning only basics other software not what actually used in the industry.

And the institute need to change the learning patterns. In the current learning pattern we are thought

Principal, SCMIRT

with lesson and asked to practice and come. It should be changed, it's not that effective.

The new pattern should like how to learn more and practice ta that time time only, if we home we may already forgot about what we have done in class.

We need more experienced and qualified faculties.

The things which are used in industry should be used in our college to teach us!

We don't have compatible machines! For our softwares!

good

ok

Expert faculty

teacher try to solve student problem , one to one attention is also done

we need more exposure to subject

Hear problems of students and give necessary solutions

Teaching is good

Find new teachers for animation

1. If we could learn stuff outside the syllabus.
2. If other softwares (outside the syllabus) a part of the curriculum.
3. If we can have more field visits.

Replace all PC for Animation students and bring wifi connection

.

Amazing

There is no time management and there are two hour gap in our lectures, but in that gap gym, yoga is arranged

No

More google quiz

Presentations based on particular topic

we need more lab time

.

Teaching skills is good.

Nothing

None

1. Give Assignment to student and take tastes on every chapter
2. Observe students that they are able to understand in the teaching speed
3. Teachers should set positive and happy environment so all students attends the lecture with joyful.

Rest all the things are great about our institute

Nothing

Teaching is very good,

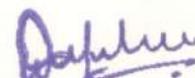

Everything is fine overall ver good staff

Use better graphics and visual media to engage students well.

Try to reach every student and ask for their doubts.

Make teaching a two way interaction.

Principal, SCMIRT

Nice

Fairly conducting lectures with the students present. Extra lectures for each subject in second last/last week of each month, to avoid incompleteness of syllabus and clear any doubts of students. Rules and regulations should be applied to all students equitably.

The institution should appreciate students who score good marks in exams by giving medals or trophy. Teachers should have complete knowledge of the subject they are teaching.

Syllabus should be completed on time

More discussions with students and more interactions will help building a strong bond as well as help in making the concepts clear in very less number of time.

Want more interaction

Want more field visits

Want learning in fun way

There is no suggestions regarding the improvement because our teaching staff is very good

More extracurricular activities should be arranged by the institution.

Individual classroom should be assigned to each and every course.

Practical knowledge/experience should be implemented

1) some faculties should focus on student's growth more than their personal interest.

2) Hard working faculties should be promoted.

3) Engaging activities must be involved in teaching.

it was nice

teacher put in more effort to make the lectures interesting through various activities, prepare well before the lecture and explain it in easier way.

good

Try to understand student needs and work on it.

good

Nothing

Good

Nothing

good faculty

Effective

fair

Their nothing like giving suggestion

Lengthy process for fees and admin

Exam department cooperates well and is efficient

faculty is good

1) Institution should improve their communication with students

Teacher is best

-

Principal, SCMIRT

faculty are more communicative with all students.
Giving fair opportunities to all students. is good
No suggestions

...

Very good teachers very supportive and understanding
ok
teachers teahes softly
time is well planned
good
No

-----Complete the syllabus before the exam-----

1) Teacher track the students weakness and guild them to improve.

2) conduct practical regularly

3) while teaching some topics give life example to students.

Teachers are giving personal attention to students

They are organizing guest lectures for us

Very helpful teachers

Nothing as such everything is excellent

No

..

Nothing

Syllabus is completed before exams

No

1. Promote interactive learning methods.

2. Integrate technology into the curriculum.

3. Offer ongoing professional development for educators.

1. During the lectures, more interaction of the students and teachers happen.

2. Teachers complete the syllabus before time so that the students get time to revise.

3. Teachers explain the topics with more examples.

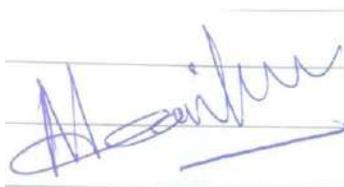

Na

were able to understand, cover thé syllabus on the time as per before exams.

No suggestions

Lectures are conducted on time

Nothing

Principal, SCMIRT

1. My experience is so good
2. Teachers are very interacted to student about their doubt
3. Overall teaching is very well

No

No

1. Use ICT tools
2. Give attention to each student
3. syllabus covered before exam

We can issue more than once the book which not related to the course

No suggestions

Compulsory lecture addent

We are in a position where we need to understand more practical perspective rather than theoretical one, that's I want to looking forward on that.

Teachers are supportive ,best learning process ,it's great atmosphere

No

Satisfy with the teachers staff

N/A

According to my observation

All teachers are well knowledgeable about that subject &

Good Communication skills

All good

they more interactive towards students

Principal, SCMIRT
