

## **Suryadatta College of Management Information Research and Technology**

7.1.5 Waste Management steps including:

**Solid Waste Management: -**

**Liquid Waste Management: -** We don't get liquid waste from the Laboratory. However other Liquid waste is directly managed through the corporation drainage/ sewage line. Admin department check all taps and water outlets periodically to prevent wastage of water etc.

**E- Waste Management: -** Whatever e waste we had is utilized in creation of flying horse on a chariot, with wings made out of recycled e waste. It is 8.6 ft tall and 8.3 ft long.

In line with Suryadatta's emphasis on sustainability and wellbeing of mother earth, It carried out an internal drive of e waste management by processing old IT equipment according to standard environmental practices and code. We reaffirm our continued commitment to be a responsible educational institution and adhere to best practices in sustainability management.
